About Organization

Anamika Rehabilitation Foundation is an organization driven by a profound commitment to serving the most vulnerable members of our community. Our multifaceted approach is designed to address the diverse needs of orphaned children, those living in underprivileged circumstances, children with special needs, and visually impaired individuals. Through focused efforts on rehabilitation and legal guidance, educational support, vocational training, counseling, and raising awareness on crucial issues such as health, hygiene, environment, and legal assistance, we strive to uplift and empower the aforementioned individuals, school dropouts, and underprivileged children facing social adversity. Additionally, we work to facilitate access to citizenship documents, government schemes, and placements in the development sector, fostering behavioral change, instilling work ethics, and enhancing employability for our beneficiaries. The foundation is also focusing on awareness of animal care, protection of environment, upliftment of women empowerment.

Vision

Our vision is a world where every individual, irrespective of their background, is afforded comprehensive support and equal opportunities for growth. We are committed to empowering individuals, including children with special needs and persons who are visually impaired, through education, vocational training, and legal advocacy, enabling them to lead independent and meaningful lives. We envision a future where well-being, environmental sustainability, and legal awareness thrive, fostering a society grounded in inclusivity, equity, and empowerment for all.

Mission

We are a beacon of hope, guiding vulnerable individuals, including children with special needs and visually impaired persons, towards transformation. We provide comprehensive support through a multifaceted approach encompassing rehabilitation, legal guidance, education, and empowerment initiatives. With a steadfast commitment to inclusivity and empathy, we empower individuals to realize their full potential and contribute meaningfully to society.

Founder

Subodh Vijay Johare is the visionary founder of Anamika Rehabilitation Foundation, established on 2nd April 2024, at very young age. Driven by a deep commitment to social impact, he founded the organization to empower and rehabilitate individuals from marginalized communities—especially persons with disabilities and the visually impaired.

Under his leadership, the foundation focuses on delivering comprehensive services, including skill development, educational support, and community-based programs, all aimed at fostering inclusivity, independence, and dignity for those it serves.

Co-founder

Laxmi Vijay Johare serves as the Co-Founder of Anamika Rehabilitation Foundation and plays a vital role in advancing the organization's mission and day-to-day operations. With a deep commitment to social service and community welfare, she actively contributes to the planning and implementation of the foundation's initiatives.

She is particularly passionate about creating safe and supportive shelter homes for orphan youth, persons with disabilities, and other individuals in need of care and rehabilitation. Guided by compassion and a vision of inclusive support systems, she strives to build spaces where every individual can live with dignity, security, and opportunities for a better future.

Advisor

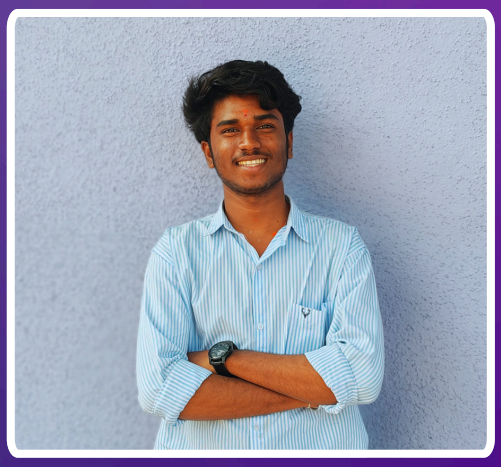

Vijay Hari Johare, a social worker with 27 years of extensive experience in the field, is currently serving as the Advisor of Anamika Rehabilitation Foundation. His dedication and expertise have significantly contributed to the organization's mission of empowering and rehabilitating communities in need.

Documentation Work

Sumita Basu is responsible for maintaining and organizing records, reports, and other essential documents related to the foundation's rehabilitation programs. Her work ensures accurate and efficient documentation to support the foundation's initiatives.

Program Head

Nagesh Kattimani is responsible for planning, managing, and overseeing all programs and events of the foundation. To make each program inclusive, he ensures smooth execution and effective coordination, supporting the foundation's mission to serve the community.

Activity of ARF

02 April 2024

Foundation Establishment

Anamika Rehabilitation Foundation was established by Subodh Vijay Johare with a vision to ensure equal opportunities, legal awareness, and dignified livelihoods for underserved communities.

2024

Initial Work with Orphans

Started with a cybersecurity and legal awareness session at an orphanage in Chembur, focusing on online safety, legal literacy, and rights awareness. This initiative later expanded to include educational guidance and vocational skill support for children.

2024

Community Outreach

Expanded into underserved communities conducting legal awareness sessions in informal settlements, informing community about their legal rights and government welfare schemes.

Activity of ARF

2024

Work with Visually Impaired Individuals

Met a visually impaired student at Mankhurd station and conducted first legal awareness session for 25+ participants. Organized World Braille Day program with 50+ participants and expanded support services.

2025

Employment & Skill Development

Facilitated work-from-home opportunities for 20 visually impaired women. Established first vocational training centre in Nerul, Navi Mumbai offering computer class and mobile repairing training.

2026

Onwards Expansion Beyond Boundaries

Expanding outreach beyond initial working areas, connecting with visually impaired graduates from multiple states for employment assistance. Building partnerships and growing community participation.

Highlights of FY 2025-26 : Educational Support

In 2025, educational support initiatives were carried out for orphan students, visually impaired students, and community students. The support included academic assistance and educational fee support to help students continue their education across different academic levels.

Support for Orphan Students

Educational guidance and academic support were provided to orphan students pursuing secondary and higher secondary education.

During the year:

- 5 students from Class 10 received educational support
- 5 students from Class 12 received educational support

Support for Visually Impaired Students

Support was also extended to visually impaired students pursuing higher education.

Educational assistance was provided to:

- 1 Bachelor of Arts (Third Year) student
- 2 Bachelor of Arts (First Year) students

Community Educational Assistance

Community-based educational assistance was also provided to one student through support towards educational fees, helping the learner continue studies without financial interruption.

A total of 14 students received educational support during the year through various educational assistance initiatives.

Welfare for Dog Awareness Session with Orphan Students

Objective: To create awareness about animal care, compassion towards animals, and responsible behaviour towards street dogs.

In June 2025, a dog welfare awareness session was conducted with orphan students in Chembur in collaboration with The Welfare of Stray Dogs. The session included discussions on basic animal care practices and the importance of creating a safe and sensitive environment for animals in the community.

International Yoga Day Celebration

Objective: To promote physical well-being, mental wellness, and awareness about the importance of yoga in daily life.

In June 2025, International Yoga Day was celebrated with orphan youth through a yoga and wellness activity session. The celebration focused on encouraging healthy lifestyle practices, physical fitness, and the importance of mental well-being through yoga exercises and group participation.

International Yoga Day Celebration

Ayushman Card Making Campaign

Objective: To support orphan youth in accessing government healthcare scheme benefits and documentation support.

In July 2025, an Ayushman Card making campaign was conducted for orphan youth in collaboration with Svitech Foundation to assist them in accessing healthcare-related government scheme benefits. Support was provided during the registration and documentation process to help beneficiaries complete their Ayushman Card applications successfully.

Ayushman Card Making Campaign

Transforming Lives: Building Bridges for Justice and Equality

Independence Day Celebration

Objective: To commemorate Independence Day and promote awareness of national values, unity, and participation among youth.

On 15th August 2025, Independence Day was celebrated with orphan youth through a group activity session. The celebration included puzzle solving, “7 Wonders of India” activity, and back-to-back balloon games. The activities were designed to encourage teamwork, engagement, and awareness about India’s heritage in a participatory environment.

Independence Day Celebration

Lippan Art Activity

Objective: To encourage creativity and cultural expression among children and youth through traditional art forms.

A Lippan art activity themed on Ganpati Bappa was conducted with orphan youth, focusing on hands-on creative engagement and cultural learning. The session allowed participants to explore traditional craft techniques while expressing devotion and creativity through art.

Lippan Art Activity

Mobile Phone Donation Drive for Students

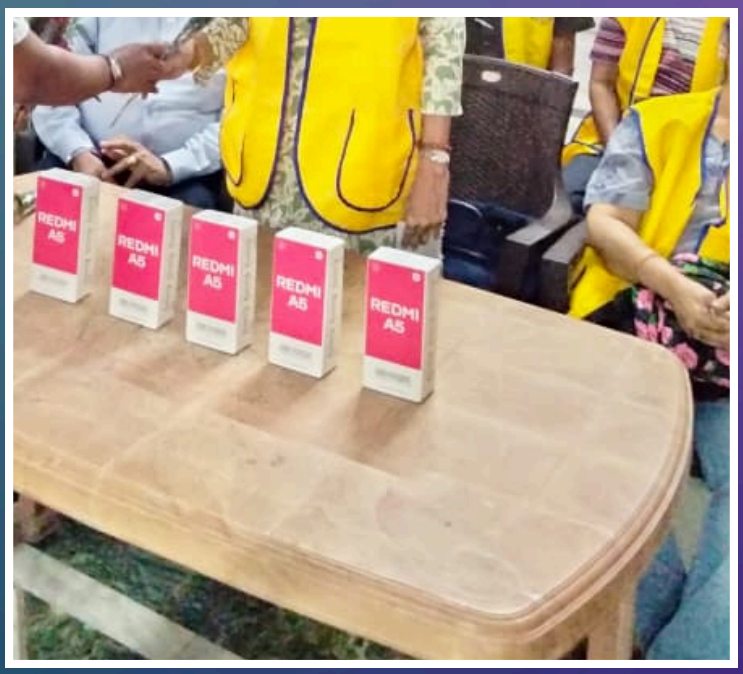

Objective: To support orphan students with access to digital devices for educational and communication needs.

A mobile phone donation drive was conducted for orphan youth with the support of Lions Club of Byculla. Mobile phones were distributed to students who lacked access to digital devices, enabling them to participate in online education, academic activities, and stay connected for essential communication.

Mobile Phone Donation Drive for Students

Diwali Celebration with Orphan Youth

Objective: To celebrate the festival of Diwali and promote joy, cultural participation, and engagement among youth.

A Diwali celebration was conducted with orphan youth through festive activities and group engagement. The celebration included cultural interaction, sharing of festive moments, and distribution of sweets and clothing to the participants, creating a joyful and inclusive environment.

Diwali Celebration with Orphan Youth

Diwali Celebration at ARF Office Nerul

Objective: To celebrate the festival of Diwali and promote joy, cultural participation, and togetherness among youth.

A Diwali celebration was conducted with orphan youth through festive activities, cultural interaction, and sharing of festive moments. The program included distribution of sweets and garments to the participants, creating a joyful and inclusive environment.
Diwali celebration was also organized at the Anamika Rehabilitation Foundation office in Nerul, where orphan students from Matunga and Bandra hostels participated in festive activities and group interaction, making the celebration more engaging and memorable.

World Braille Day Celebration 2026

O**bjective:** To encourage visually impaired individuals to showcase their talents, participation, and abilities through sports and cultural activities.

In January 2026, World Braille Day was celebrated in Nerul with participation from more than 40 visually impaired individuals. The program included debate competition, cricket competition, singing performances, and interactive engagement activities, creating an inclusive and encouraging environment for participants.

Republic Day Celebration with Orphan Youth

Objective: To commemorate Republic Day and promote awareness of national values, unity, and civic participation among youth.

On 26th January 2026, Republic Day was celebrated with orphan youth through the organization of a debate competition on the topic “Education is Important or Job”. The activity encouraged participants to express their views, develop critical thinking, and engage in healthy discussion in a learning environment. Folders were awarded to the best debaters and the winning team, where the “Education” team emerged as the winning group.

Workshops & Skill Development Programs

Skill development plays an important role in building confidence, creativity, and opportunities for personal growth. During the year, various workshops and training initiatives were organized to provide participants with practical learning experiences and exposure to new skills.

The programs focused on encouraging creativity, hands-on learning, vocational development, and active participation. Through activities such as craft making, candle making, art-based workshops, and other skill-building sessions, participants were introduced to simple, low-cost product-making techniques that can be explored as self-employment or small business opportunities.

A key objective of these workshops was to help participants understand how creative skills can be transformed into livelihood opportunities through small-scale entrepreneurship. By learning practical and cost-effective methods of product creation, participants were encouraged to explore business ideas that require limited investment while developing an understanding of basic business concepts and income-generation possibilities.

In addition to creative workshops, vocational training initiatives were also introduced to support skill enhancement and livelihood preparedness. These efforts aimed to create learning environments where participants could learn, create, build confidence, and develop skills that may contribute to future educational, professional, and entrepreneurial opportunities.

The activities presented in this section highlight the role of creativity, practical learning, and skill development in empowering individuals to explore new opportunities and build confidence for the future.

Workshops & Skill Development Programs

Objective: To encourage creativity, hands-on learning, and awareness of small-scale product-making skills among orphan youth.

A Diya Painting and Jelly Candle Making Workshop was conducted with orphan youth as part of the Diwali celebrations. The workshop provided participants with an opportunity to learn decorative and product-making techniques through practical demonstrations and hands-on activities. The session encouraged creativity, skill development, and exposure to simple low-cost products that can be explored as small-scale livelihood opportunities.

Five-Day Creativity Development Workshop with CCL Children

Objective: To encourage creativity, skill development, and exposure to practical product-making techniques among children.

In May 2025, a five-day Creativity Development Workshop was conducted with Children in Conflict with the Law (CCL). The workshop included activities such as painting, candle making, keychain making, earrings making, and chocolate making. Through hands-on participation, children were introduced to creative skills and simple product-making techniques that promoted learning, confidence-building, and awareness of potential livelihood opportunities. The workshop provided a platform for participants to explore their creativity while developing practical skills in an engaging environment.

Objective: To promote creativity, skill development, and exposure to handmade product-making techniques among children.

In January 2026, a Wooden Earrings, Bracelet, and Jelly Candle Making Workshop was conducted with Children in Conflict with the Law (CCL). The workshop provided participants with hands-on experience in creating handmade accessories and decorative products using simple materials and techniques. Through the activities, children were encouraged to develop creativity, patience, and practical skills while gaining exposure to products that can be created with minimal investment and explored as small-scale livelihood opportunities. The workshop promoted active participation, learning, and creative expression in an engaging environment.

Establishment of ARF First Office & Vocational Training Centre

In July 2025, Anamika Rehabilitation Foundation achieved an important milestone with the establishment of its first office and Vocational Training Centre in Nerul. The centre was created with the vision of providing a dedicated space for learning, skill development, and community-based educational initiatives. The establishment of the centre marked a significant step in strengthening the Foundation's efforts towards education, vocational training, and livelihood-oriented support.

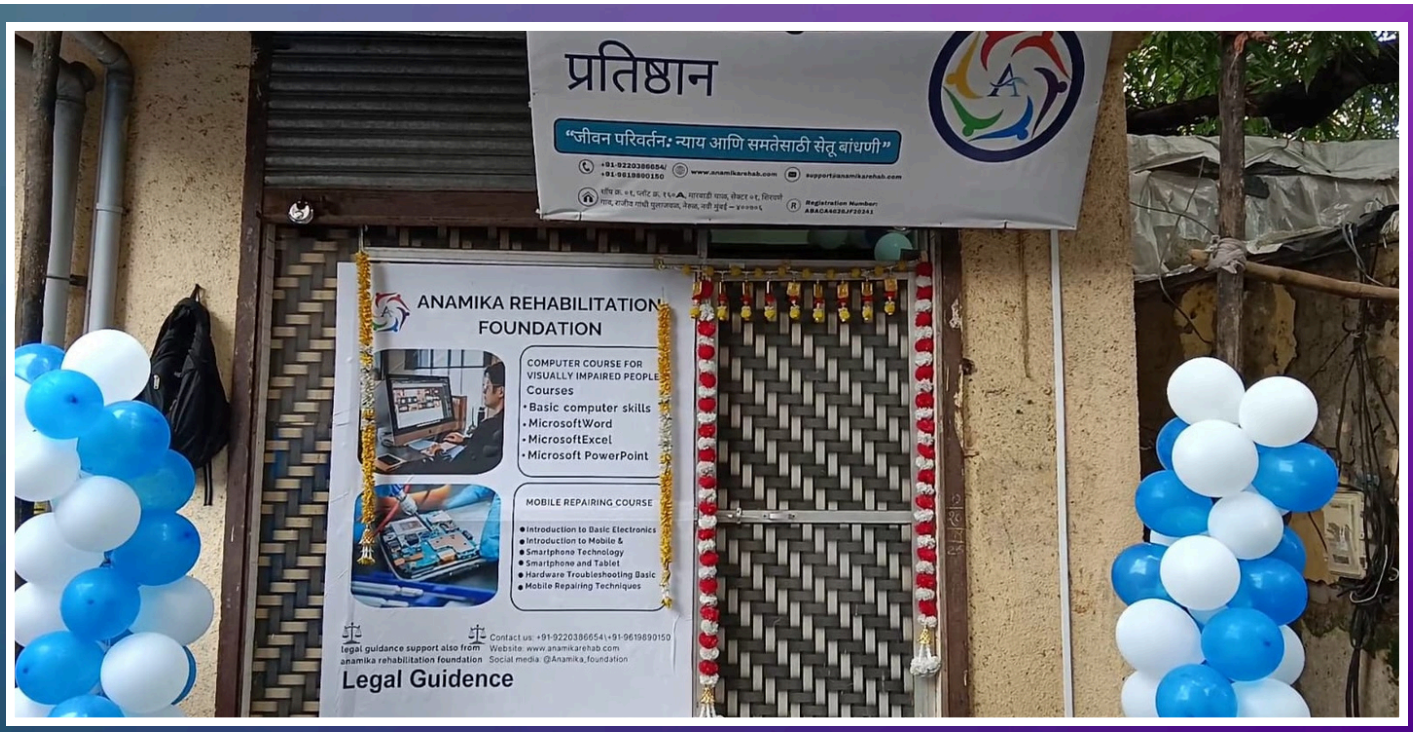

The Vocational Training Centre was developed to create opportunities for individuals to acquire practical skills, improve their knowledge, and enhance their future educational and employment prospects. By providing a structured learning environment, the centre aims to support participants in developing confidence, independence, and career-oriented competencies.

During the year, computer classes were conducted for students with visual impairment as well as community students, providing them with opportunities to strengthen their digital literacy and computer skills. In addition, mobile repairing classes were introduced for community students to provide hands-on technical training and exposure to practical vocational skills. These initiatives focused on promoting skill enhancement, learning, and preparedness for future employment and self-employment opportunities.

Lions Club of Byculla donated computers to the Vocational Training Centre.

The establishment of the Vocational Training Centre represents an important step in the Foundation's ongoing commitment to creating accessible learning opportunities and supporting individuals in their journey towards education, skill development, and livelihood advancement.

Establishment of ARF First Office & Vocational Training Centre

ARF office Inaugration 05 JULY 2025

Transforming Lives: Building Bridges for Justice and Equality

Establishment of ARF First Office & Vocational Training Centre

Adv. Munir Tisekar is a visually impaired professional whose journey reflects determination, resilience, and achievement. Through his accomplishments and inspiring life journey, he has motivated many individuals to pursue their goals with confidence and perseverance. He inaugurated ARF's first office and Vocational Training Centre by cutting the ceremonial ribbon, marking an important milestone in the Foundation's journey towards education, skill development, and community empowerment.

Establishment of ARF First Office & Vocational Training Centre

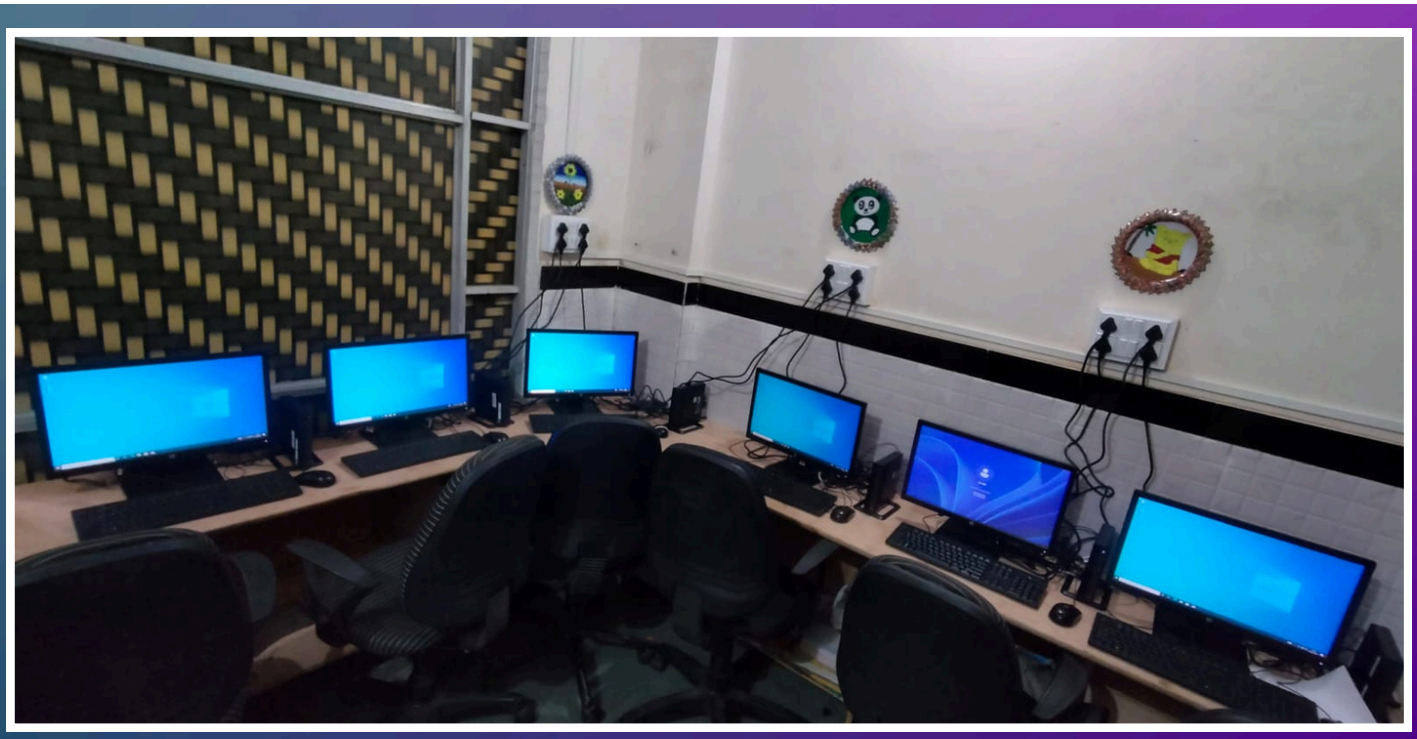

Guests of Honour

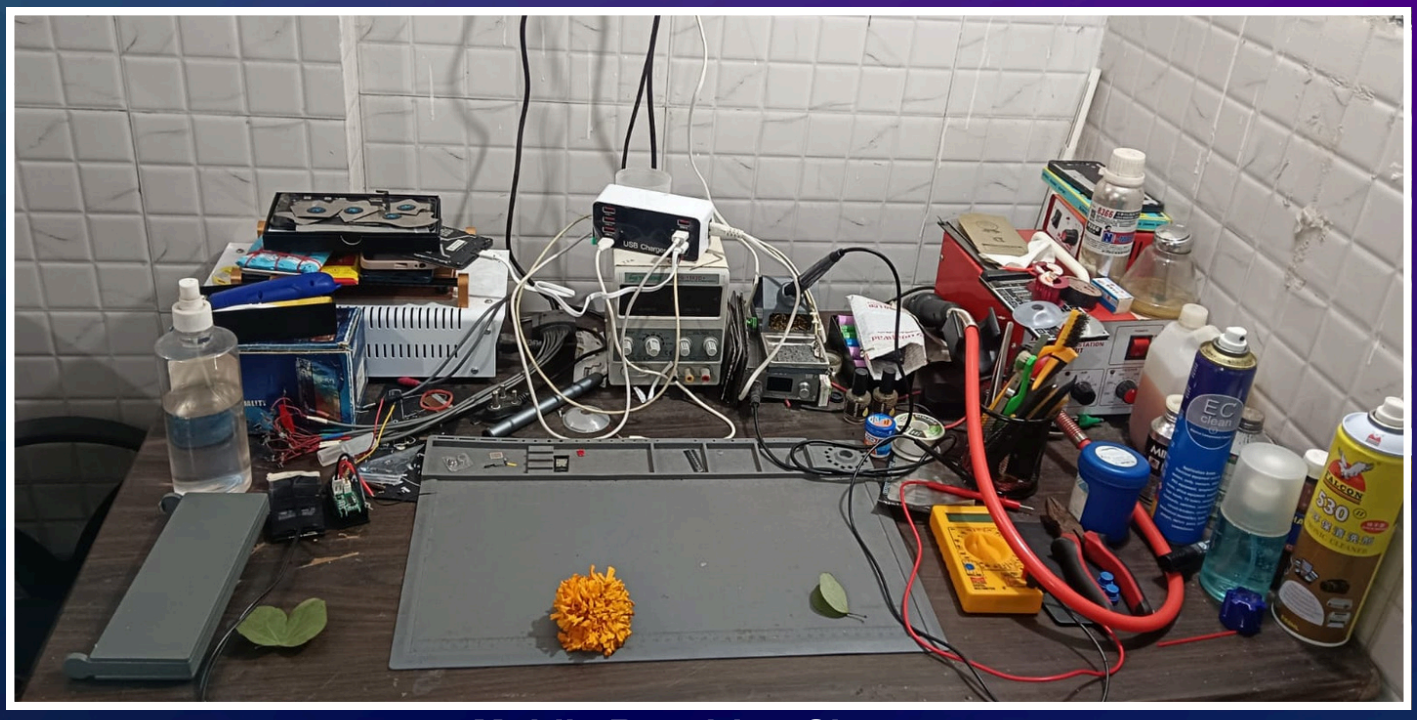

The inauguration of ARF's First Office & Vocational Training Centre was graced by distinguished guests whose presence and encouragement made the occasion memorable. The Foundation was honoured to welcome the guests as a gesture of appreciation and gratitude.

- Welcoming Mr. Kranti Shejwalkar with a token of appreciation.
- Welcoming Mr. Pritesh Kamble, Founder of Akino Foundation.
- Welcoming Mr. Kishor Makhwana Navy Retired Officer with a token of appreciation.

Establishment of ARF First Office & Vocational Training Centre

The establishment of Anamika Rehabilitation Foundation first office in Nerul Navi-Mumbai marked an important milestone in the Foundation's journey. The office serves as a dedicated space for planning, coordination, skill development initiatives, and community engagement activities, supporting the Foundation's vision of creating opportunities through education, rehabilitation, and empowerment.

Educational & Training Initiatives

Education and skill development continued to be important focus areas during the year. Various initiatives were undertaken to provide learning opportunities, strengthen practical skills, and encourage continuous personal development among students and youth.

Recognizing the importance of education and digital learning in today's world, efforts were made to introduce innovative learning opportunities that extended beyond traditional classroom support. These initiatives focused on improving communication skills, digital literacy, and access to practical learning experiences that could contribute to future educational and career opportunities.

Through pilot educational programs and technology-enabled training initiatives, participants were provided with opportunities to learn, engage, and develop new skills in a supportive environment. The initiatives presented in this section reflect efforts to promote learning, confidence building, and skill enhancement through community-based educational interventions.

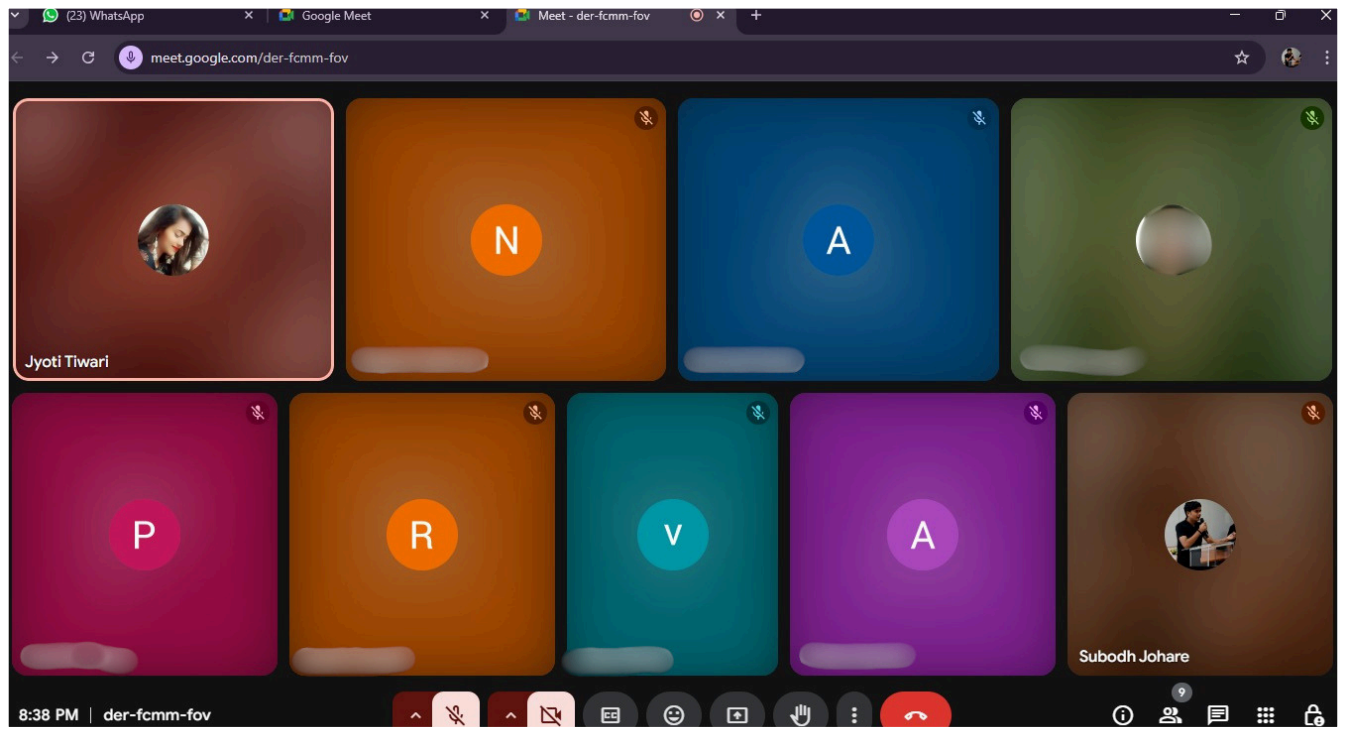

Online English Classes – Pilot Project

Objective: To strengthen English communication skills and provide additional learning opportunities for students through online education.

The Online English Classes Pilot Project was launched in May 2025 as a three-month online learning initiative. The program was introduced to provide students with an opportunity to improve their English communication skills and participate in structured online learning sessions.

A total of 10 students participated in the pilot project, including a participant from Delhi. The online format enabled students from different locations to join the classes and engage in regular learning activities. Upon successful completion of the program, certificates were distributed to the participants during an offline certificate distribution session.

The pilot project provided valuable learning experiences and helped participants strengthen their communication skills while exploring the potential of online education as a tool for continued learning and skill development.

The Online English Classes Pilot Project.

Tech on Wheel Project

Objective: To provide basic computer education and digital literacy opportunities to orphan youth.

The Tech on Wheel Project was implemented in collaboration with Masoom Foundation to provide computer education to orphan youth residing at the After Care Boys Hostel. The initiative aimed to introduce participants to essential computer skills and strengthen their digital literacy through structured training sessions.

The project provided practical exposure to computer usage, helping participants develop confidence and familiarity with digital tools that are increasingly important in education and employment. Through regular learning sessions, students were able to build foundational computer skills in a supportive learning environment.

Upon successful completion of the course, certificates were distributed to the participants in recognition of their learning and participation. The initiative contributed towards enhancing digital awareness and creating opportunities for continued learning and skill development among the youth.

The Superintendent is seen distributing study materials to a participant of the Tech on Wheel Project. The learning resources were provided to support students in their computer training journey and encourage continued learning and skill development.

Tech on Wheel Project

On 15th August 2025, course completion certificates were distributed to the participants of the Tech on Wheel Project in recognition of their successful completion of the computer training program. The certificate distribution ceremony acknowledged the students' commitment, participation, and learning achievements throughout the course.

Tech on Wheel Project

The successful implementation of the Tech on Wheel Project was made possible through the valuable collaboration of Masoom Foundation and the support of the After Care Boys Hostel, Chembur. We sincerely express our gratitude to Masoom Foundation for this initiative and to the After Care Boys Hostel for providing the opportunity to conduct the program for orphan youth and support their learning and skill development journey.

Legal Rights & Cyber Security Awareness Session

Objective: To create awareness about legal rights, responsibilities, child protection laws, and safe digital practices among students.

In 2025, a Legal Rights and Cyber Security Awareness Session was conducted at Tilak College, Nerul, with participation from more than 40 students. The session focused on introducing students to fundamental legal rights, responsibilities, the provisions of the POCSO Act, and the importance of cyber safety in today's digital environment.

Participants were informed about common cyber threats, online frauds, digital security practices, child protection measures, and the importance of responsible use of technology. The session encouraged students to understand their rights, stay informed about legal protections, and make safe and responsible decisions in both online and offline environments.

Legal Rights & Cyber Security Awareness Session

Employment & Livelihood Support

The Employment & Livelihood Support Initiative was introduced by Anamika Rehabilitation Foundation with the objective of promoting economic independence and meaningful employment opportunities for visually impaired individuals.

The initiative emerged from a research and outreach process led by the Founder between 2025 and 2026. Through interactions with visually impaired students, graduates, organizations, and community members, it was identified that many visually impaired graduates faced significant challenges in accessing employment opportunities despite possessing educational qualifications, skills, and professional aspirations.

Based on these findings, the Foundation initiated efforts to provide job placement support, career guidance, employer outreach, and opportunity-sharing services to connect candidates with suitable employment opportunities. In addition, support was extended to individuals interested in self-employment and livelihood-based initiatives.

This initiative reflects the Foundation's commitment to promoting economic inclusion, self-reliance, and equal opportunities for visually impaired individuals. The activities presented in this section highlight the Foundation's efforts towards addressing employment challenges and supporting sustainable livelihood opportunities.

Employment & Livelihood Support

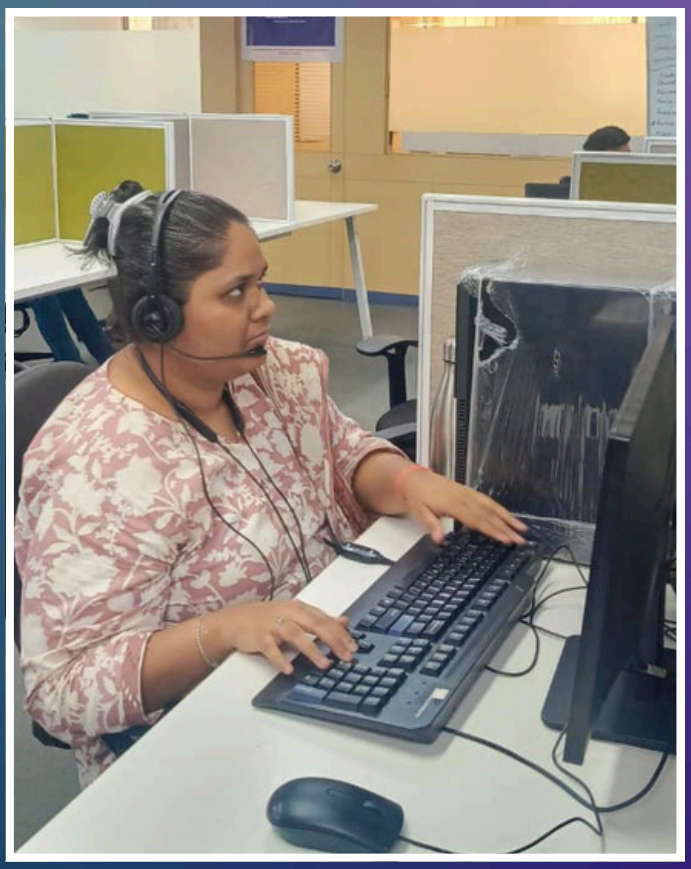

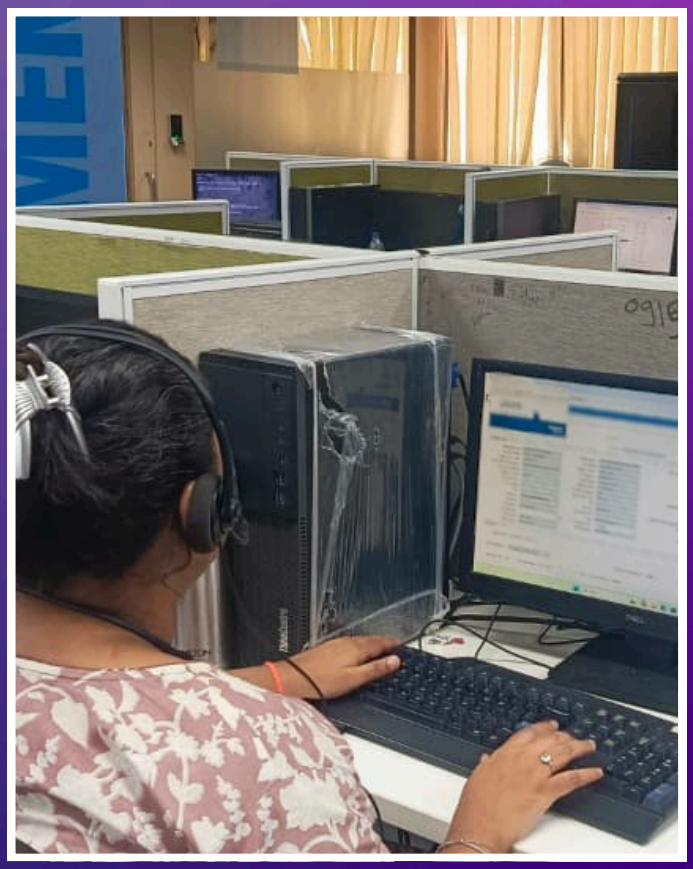

Success Story: From Street Sales to Shop Ownership

Driven by determination and a strong entrepreneurial spirit, one of our visually impaired students began his journey by selling products such as Ayurvedic items and bags in local trains and at small street stalls to support himself. Despite facing challenges, he remained committed to building a sustainable livelihood and creating a better future for himself.
Recognizing his dedication and potential, Anamika Rehabilitation Foundation connected him with Tata STRIVE, through which he received financial support to purchase products for his business. Alongside this, continued educational support and mentorship were provided to encourage his personal and professional growth.

Through his own efforts and perseverance, he later applied for the Government's One Station One Product scheme and was successfully allotted a shop. Today, he confidently manages his own stall, marking an important milestone in his journey towards financial independence, self-reliance, and entrepreneurship.

Employment & Livelihood Support

Success Story: Turning Aspiration into Employment

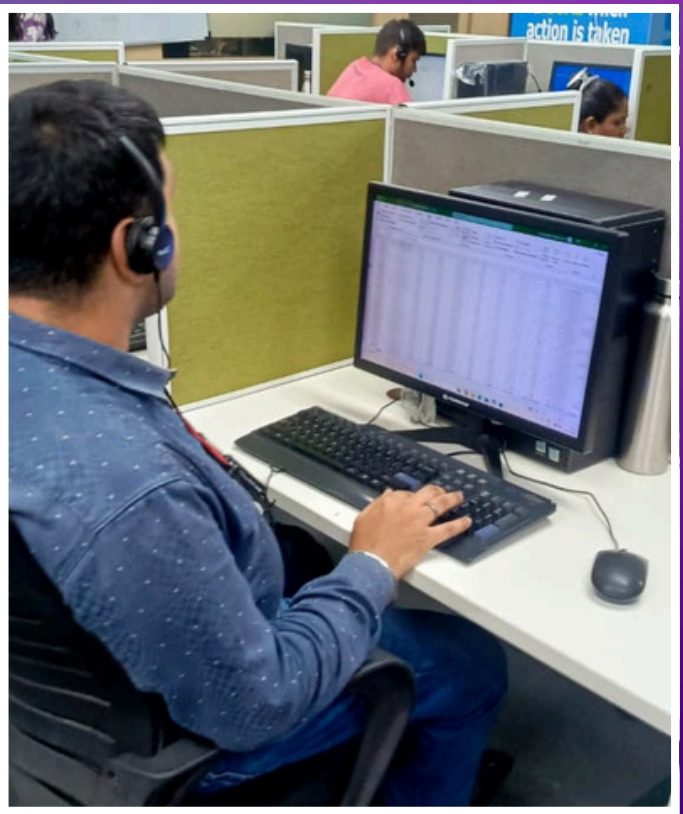

After completing her graduation, one of our visually impaired beneficiaries actively searched for employment opportunities and appeared for several interviews. Despite her qualifications and determination, securing a suitable job remained a challenge.

Through Anamika Rehabilitation Foundation's Employment Support Initiative, she was referred for an interview with Vindhya e-Infomedia Pvt. Ltd. Demonstrating confidence and capability, she successfully cleared the interview and received an employment offer for the position of Call Center Operator with an annual package of approximately ₹1.80 lakh per annum.

Her achievement highlights the importance of inclusive employment opportunities and serves as an inspiration to other visually impaired graduates pursuing their career aspirations.

Employment & Livelihood Support

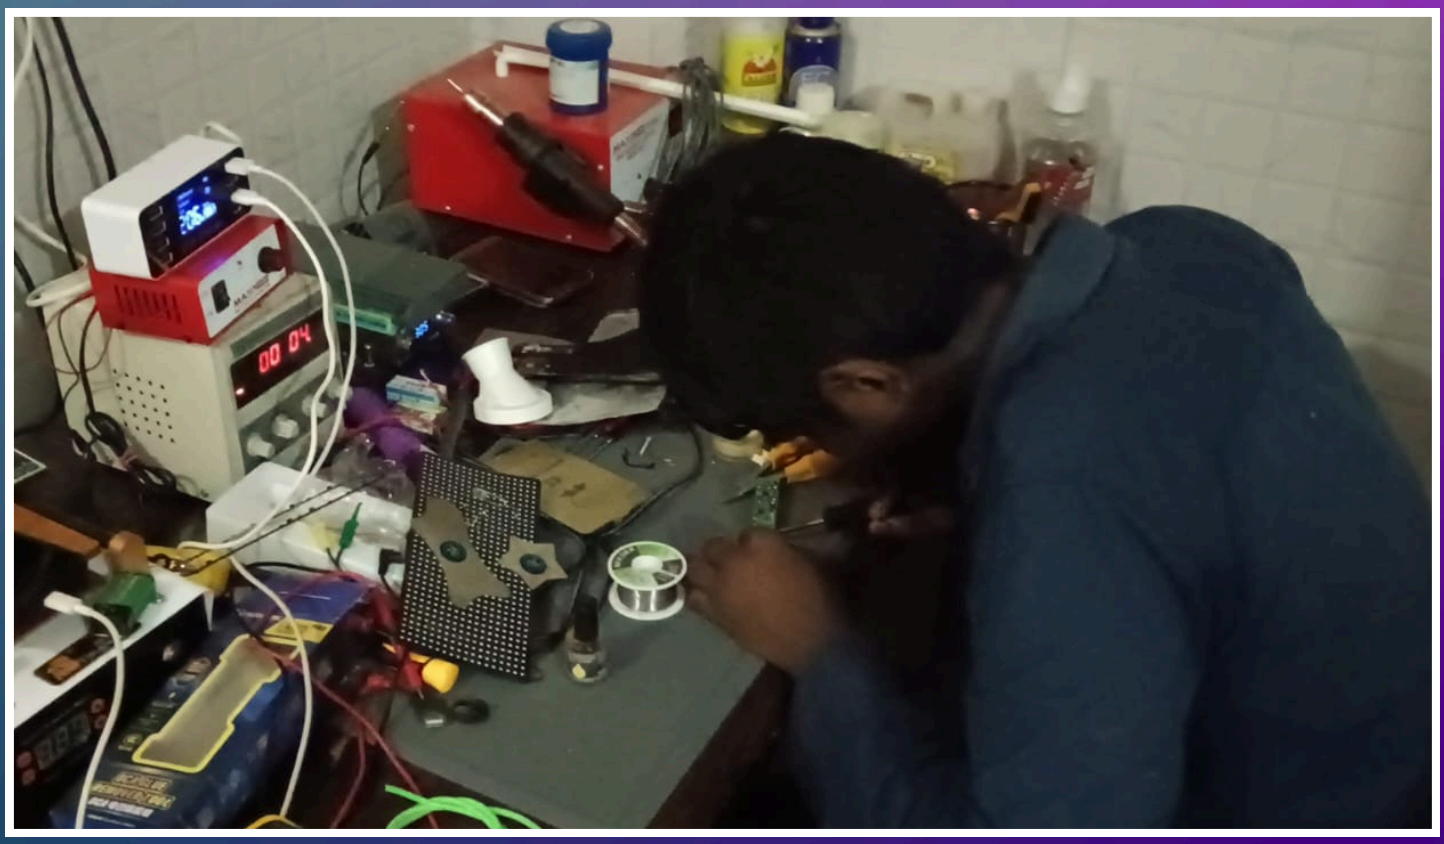

Success Story: From Self-Employment to Stable Employment

After completing his graduation, one of our visually impaired beneficiaries was engaged in a small business supplying orchestra and musical instrument-related products. While he demonstrated strong entrepreneurial initiative, the seasonal nature of the business made it difficult to secure a stable income throughout the year.

In search of sustainable employment opportunities, he became a part of Anamika Rehabilitation Foundation's Employment & Livelihood Support Initiative. Through the Foundation's job placement efforts, he was referred for an interview with Vindhya e-Infomedia Pvt. Ltd.

Following a successful interview, he received an employment offer for the position of Call Center Operator with an annual package of approximately ₹1.68 lakh per annum. His journey reflects the importance of employment support, inclusive hiring opportunities, and perseverance in achieving economic stability and professional growth.

Mobile Repairing Training Success Stories

Success Story: Starting a Home-Based Mobile Repairing Business

This student comes from a financially disadvantaged family and discontinued his education after Class 9. Although he was unable to continue his studies, he was interested in starting his own business and becoming financially independent.

To develop practical skills, he enrolled in the Mobile Repairing Course conducted at the Anamika Rehabilitation Foundation Vocational Training Centre. During the training, he learned basic mobile phone repairing and servicing techniques through practical sessions.

After completing the course, the Foundation supported him by providing the necessary mobile repairing tools and materials required to begin his work. Using these resources and the skills gained through the training, he started a mobile repairing service from his home.

Today, he continues to provide mobile repairing services in his community and is working towards building a sustainable source of income through self-employment.

Mobile Repairing Training Success Stories

Success Story: Learning a Skill and Gaining Work Experience

Coming from a family dependent on construction labour for its livelihood, this student faced financial challenges that made it difficult to pursue higher education after completing his schooling. Looking for an opportunity to develop practical skills and improve his future prospects, he enrolled in the Mobile Repairing Course conducted at the Anamika Rehabilitation Foundation Vocational Training Centre.

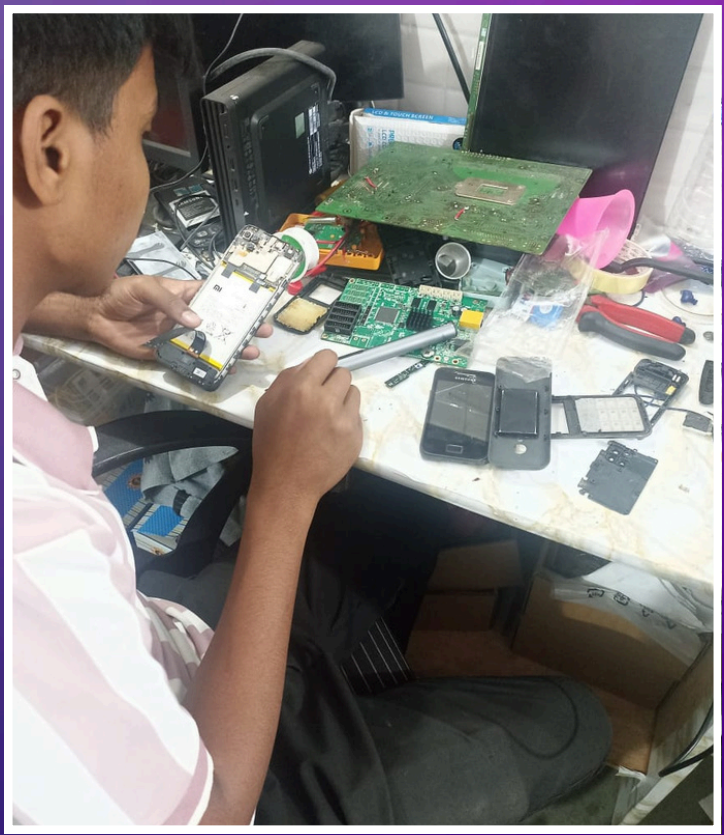

The evening timing of the course allowed him to continue managing his responsibilities while learning a new skill. During the training, he gained practical knowledge of mobile phone repairing and servicing.

After completing the course, the Foundation connected him with a local mobile repair shop for an internship. This opportunity enabled him to gain hands-on experience in a professional setting while also earning an income.

Today, he continues to strengthen his technical skills through practical work experience, taking important steps towards building a stable livelihood and future career opportunities.

Mobile Repairing Training Success Stories

Success Story: Preparing for a Future Business

This student migrated from his village in search of better livelihood opportunities and was working as a tea seller while supporting his family financially. The job also provided him with accommodation, allowing him to manage his living expenses while sending money back home.

With an interest in developing a sustainable source of income, he enrolled in the Mobile Repairing Course conducted at the Anamika Rehabilitation Foundation Vocational Training Centre. The evening timing of the course enabled him to continue working while learning a new technical skill.

During the training, he gained practical knowledge of mobile phone repairing and servicing. His goal is to use these skills to establish his own mobile repairing business in his village and create a stable livelihood for himself and his family.

His journey reflects how vocational training can help individuals explore new livelihood opportunities and work towards greater economic self-reliance.

IMPACT SUMMARY 2025–26

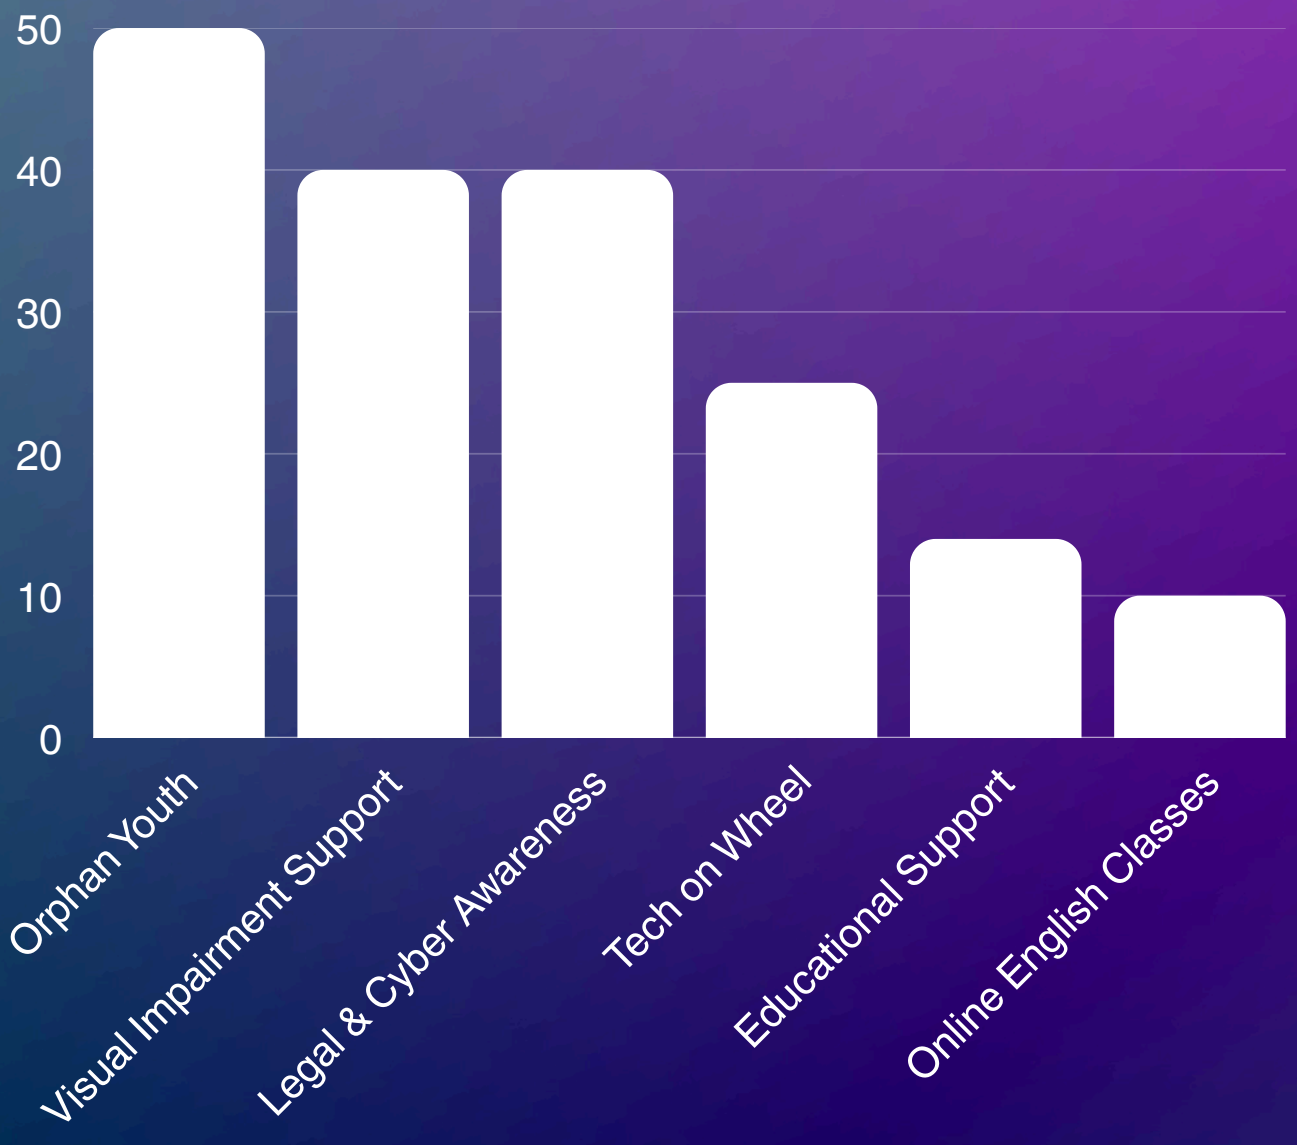

Programme Area	Key Achievement	People Reached
Educational Support	Admission and educational assistance provided to students	14 Students
Orphan Youth Development	Educational, developmental and skill-building initiatives conducted	50+ Youth
Visual Impairment Support	Educational, rehabilitation and employment support initiatives implemented	40+ Individuals
Online English Classes	Pilot batch successfully completed	10 Students
Tech on Wheel Project	Computer training facilitated in collaboration with Masoom Foundation	25 Students trained
Mobile Repairing Training	Community youth trained in technical skills	3 Documented Success Stories
Employment Support Initiative for Visually Impaired students	Job placement assistance provided to visually impaired graduates	2 Successful Placements
Entrepreneurship Support	Livelihood support extended to a visually impaired entrepreneur	1 Entrepreneur Supported

IMPACT SUMMARY 2025–26

Highlights of the Year

- Establishment of the First Office and Vocational Training Centre of Anamika Rehabilitation Foundation in Nerul, Navi Mumbai.
- Launch of the Employment & Livelihood Support Initiative following a founder-led research study on employment challenges faced by visually impaired graduates.
- Successful job placements facilitated for visually impaired graduates through employer networking and placement support.
- Support provided to a visually impaired entrepreneur in strengthening his self-employment journey and securing a retail shop.
- Successful completion of the Online English Classes Pilot Project, providing accessible learning opportunities to students from different backgrounds, including participants from multiple cities.
- Strengthening of partnerships with educational institutions, NGOs, community organizations, and corporate stakeholders to create greater opportunities for beneficiaries.

IMPACT SUMMARY 2025–26

Every number presented in the 2025–26 Impact Summary represents an individual journey, a learning opportunity, and a step towards greater inclusion, dignity, and self-reliance.
